

A 3×3 TOUR · FOUNDED ON THE LEGACY OF PERVIS POLK

GRASS ROOTS TO GLOBAL

A vertically integrated 3×3 basketball system — from the neighborhood court to the world stage.

2026

THE POLK CUP

HONORING PERVIS · BUILDING A TOUR

We proved a tournament. Now we build the tour.

The Pervis Polk Memorial 3×3 launches August 2026 in Pasadena — 50 teams, two days, four schools funded. That is the seed.

The bigger idea: a family-first, high-production 3×3 tour that grows from Pasadena to a national circuit to an international property — building the grassroots-to-pro pathway American basketball is missing.

WHY THIS, WHY NOW

American youth hoops has a hole. 3×3 fits it.

AAU is broken for families

Expensive, travel-heavy, and increasingly resented. Families want a cheaper, local, weekend-sized alternative — and can't find one.

FIBA World Tour is elite, not family

World-class production, but streetball-serious and points-chasing. Nothing is built for the family in the stands and the enthusiast on the court at once.

3×3 is rising and under-built

An Olympic sport since 2020 — fast, cheap, phone-native, festival-ready. Globally respected, structurally under-developed in the U.S. The gap is the opportunity.

THE POLK CUP DIFFERENCE

Family-friendly. High production. A real pathway.

ON THE COURT

Hoop enthusiasts. Competitive, well-run, FIBA-format games with a signature: every game to 17 — "Cal Tech 17" — championship to 21.

AROUND THE COURT

Families. Vendors, music, an emcee, activations. The festival is the point as much as the final.

THE PATHWAY

A grassroots → regional → pro ladder. We position as a development feeder into FIBA's Olympic system — friendly, not competitive.

PROVE THE PRODUCT, THEN THE SPECTACLE

Four Pasadena events de-risk the whole thing.

AUG 15–16, 2026

INAUGURAL

Blair High School · 50 teams, two days. Bare-bones — prove gameplay + ops.

~FEB/MAR 2027

EVENT #2

Bare-bones. Absorb learnings; test player, brand, and fan appetite.

SPRING 2027

EVENT #3 · FESTIVAL

Pasadena City Hall — vendors, DJ, emcee, brand activations.

START OF SUMMER 2027

EVENT #4 · FESTIVAL

The Rose Bowl — the year-one showcase.

What it proves: repeatable operations, a family + hoop-head audience, and real sponsor demand — before we ask anyone to scale it.

GRASSROOTS TO GLOBAL

Three phases. One system.

PHASE 1

PASADENA PROOF

Year one — four events, one city.
Prove product + demand.

PHASE 2

GO NATIONAL

A nationwide circuit — season, rankings, national final. Like the ATP tour, for 3×3. A genuine AAU alternative and a FIBA feeder.

PHASE 3

GO GLOBAL

Bring Polk Cup production where 3×3 is already loved. Funded at this stage by sovereign & strategic capital partners.

HOW THE TOUR MAKES MONEY

Seven streams. One flywheel.

01

Team entry fees

The grassroots base — every event, every city.

03

Media & streaming

A season with rankings is followable content.

05

Vendor & host-city fees

Festivals sell space; cities pay to host.

07

Development academy

The pathway monetized — camps, clinics, showcases.

02

Sponsorship & activations

Title, court, and brand partners buying a family audience.

04

Merch & licensing

The Polk Cup as a brand, not just an event.

06

Ticketing & hospitality

At the festival tier — Rose Bowl and up.

WHAT WE'RE WATCHING — HONESTLY

We know where this breaks.

Pace

Four events in year one is aggressive. Mitigation: slide Event #2 to Feb/March and keep #2 bare-bones. Prove ops before spectacle.

Entity & structure

Tour economics differ from a nonprofit tournament. Flag: decide nonprofit vs. for-profit tour entity before national scale — with counsel.

Demand at scale

Pasadena love ≠ national demand. Mitigation: year one exists to generate the proof, not assume it.

Capital concentration

Phase 3 leans on large strategic partners. Mitigation: build a durable business in Phases 1–2 so global is a choice, not a dependency.

PARTNER AT THE GROUND FLOOR

Back the **proof.** Own the **pathway.**

We're assembling founding brand partners and investors who want in before the tour scales.

Fund year one, help us prove the engine in Pasadena, and grow with a values-driven, family-first 3×3 property from its first whistle.
