

THE POLK CUP · GRASSROOTS TO GLOBAL

THE ROADMAP

A vertically integrated 3x3 development system — from the neighborhood court to the world stage.

PHASE 1 · YEAR ONE · PASADENA PROOF

YEAR ONE

Prove the product, then the spectacle

- Aug 15–16, 2026 — INAUGURAL · Blair High School · 50 teams, two days (bare-bones, prove gameplay + ops)
- Winter ~Feb/March 2027 — Event #2 · bare-bones · absorb learnings, test player/brand/fan appetite
- Spring 2027 — Event #3 · FESTIVAL at Pasadena City Hall · vendors, DJ, emcee, brand activations
- Start of Summer 2027 — Event #4 · FESTIVAL at the Rose Bowl · the year-one showcase
- What it proves: repeatable ops, a family + hoop-head audience, and sponsor demand.

PHASE 2 · NATIONAL EXPANSION

GO NATIONAL

A nationwide circuit — like the ATP tour, for 3x3

- Multi-city tour with a season, rankings, and a national final
- Grassroots feeder tiers that rival — and can replace — AAU for families
- Position as a DEVELOPMENT FEEDER into FIBA's system, not a competitor
- Revenue: sponsorship & activations, media/streaming, merch, vendor & host-city fees
- What it proves: the tour model scales and attracts major brand + investor capital.

PHASE 3 · INTERNATIONAL

GO GLOBAL

Bring infrastructure where 3x3 is already loved

- Expand abroad, where 3x3 is more established but lacks Polk Cup's production + infrastructure
- Funded at this phase by sovereign / strategic capital partners
- Global calendar; talent pipeline from local courts to the international stage
- What it proves: a durable, global, vertically integrated 3x3 property.

OUR NICHE

Hoop enthusiasts ON the court. Families AROUND the court. FIBA-level production — without the streetball-only, points-chasing intensity of the FIBA World Tour.

The Polk Cup = family-friendly + high production + a real grassroots→pro pathway. “We play to 17.”
